## About Me

### Our Mission

We want to make accessibility to food easier to the hungry mouths of America. Everyone deserves the right to proper nutrition. We are here to help make that happen.

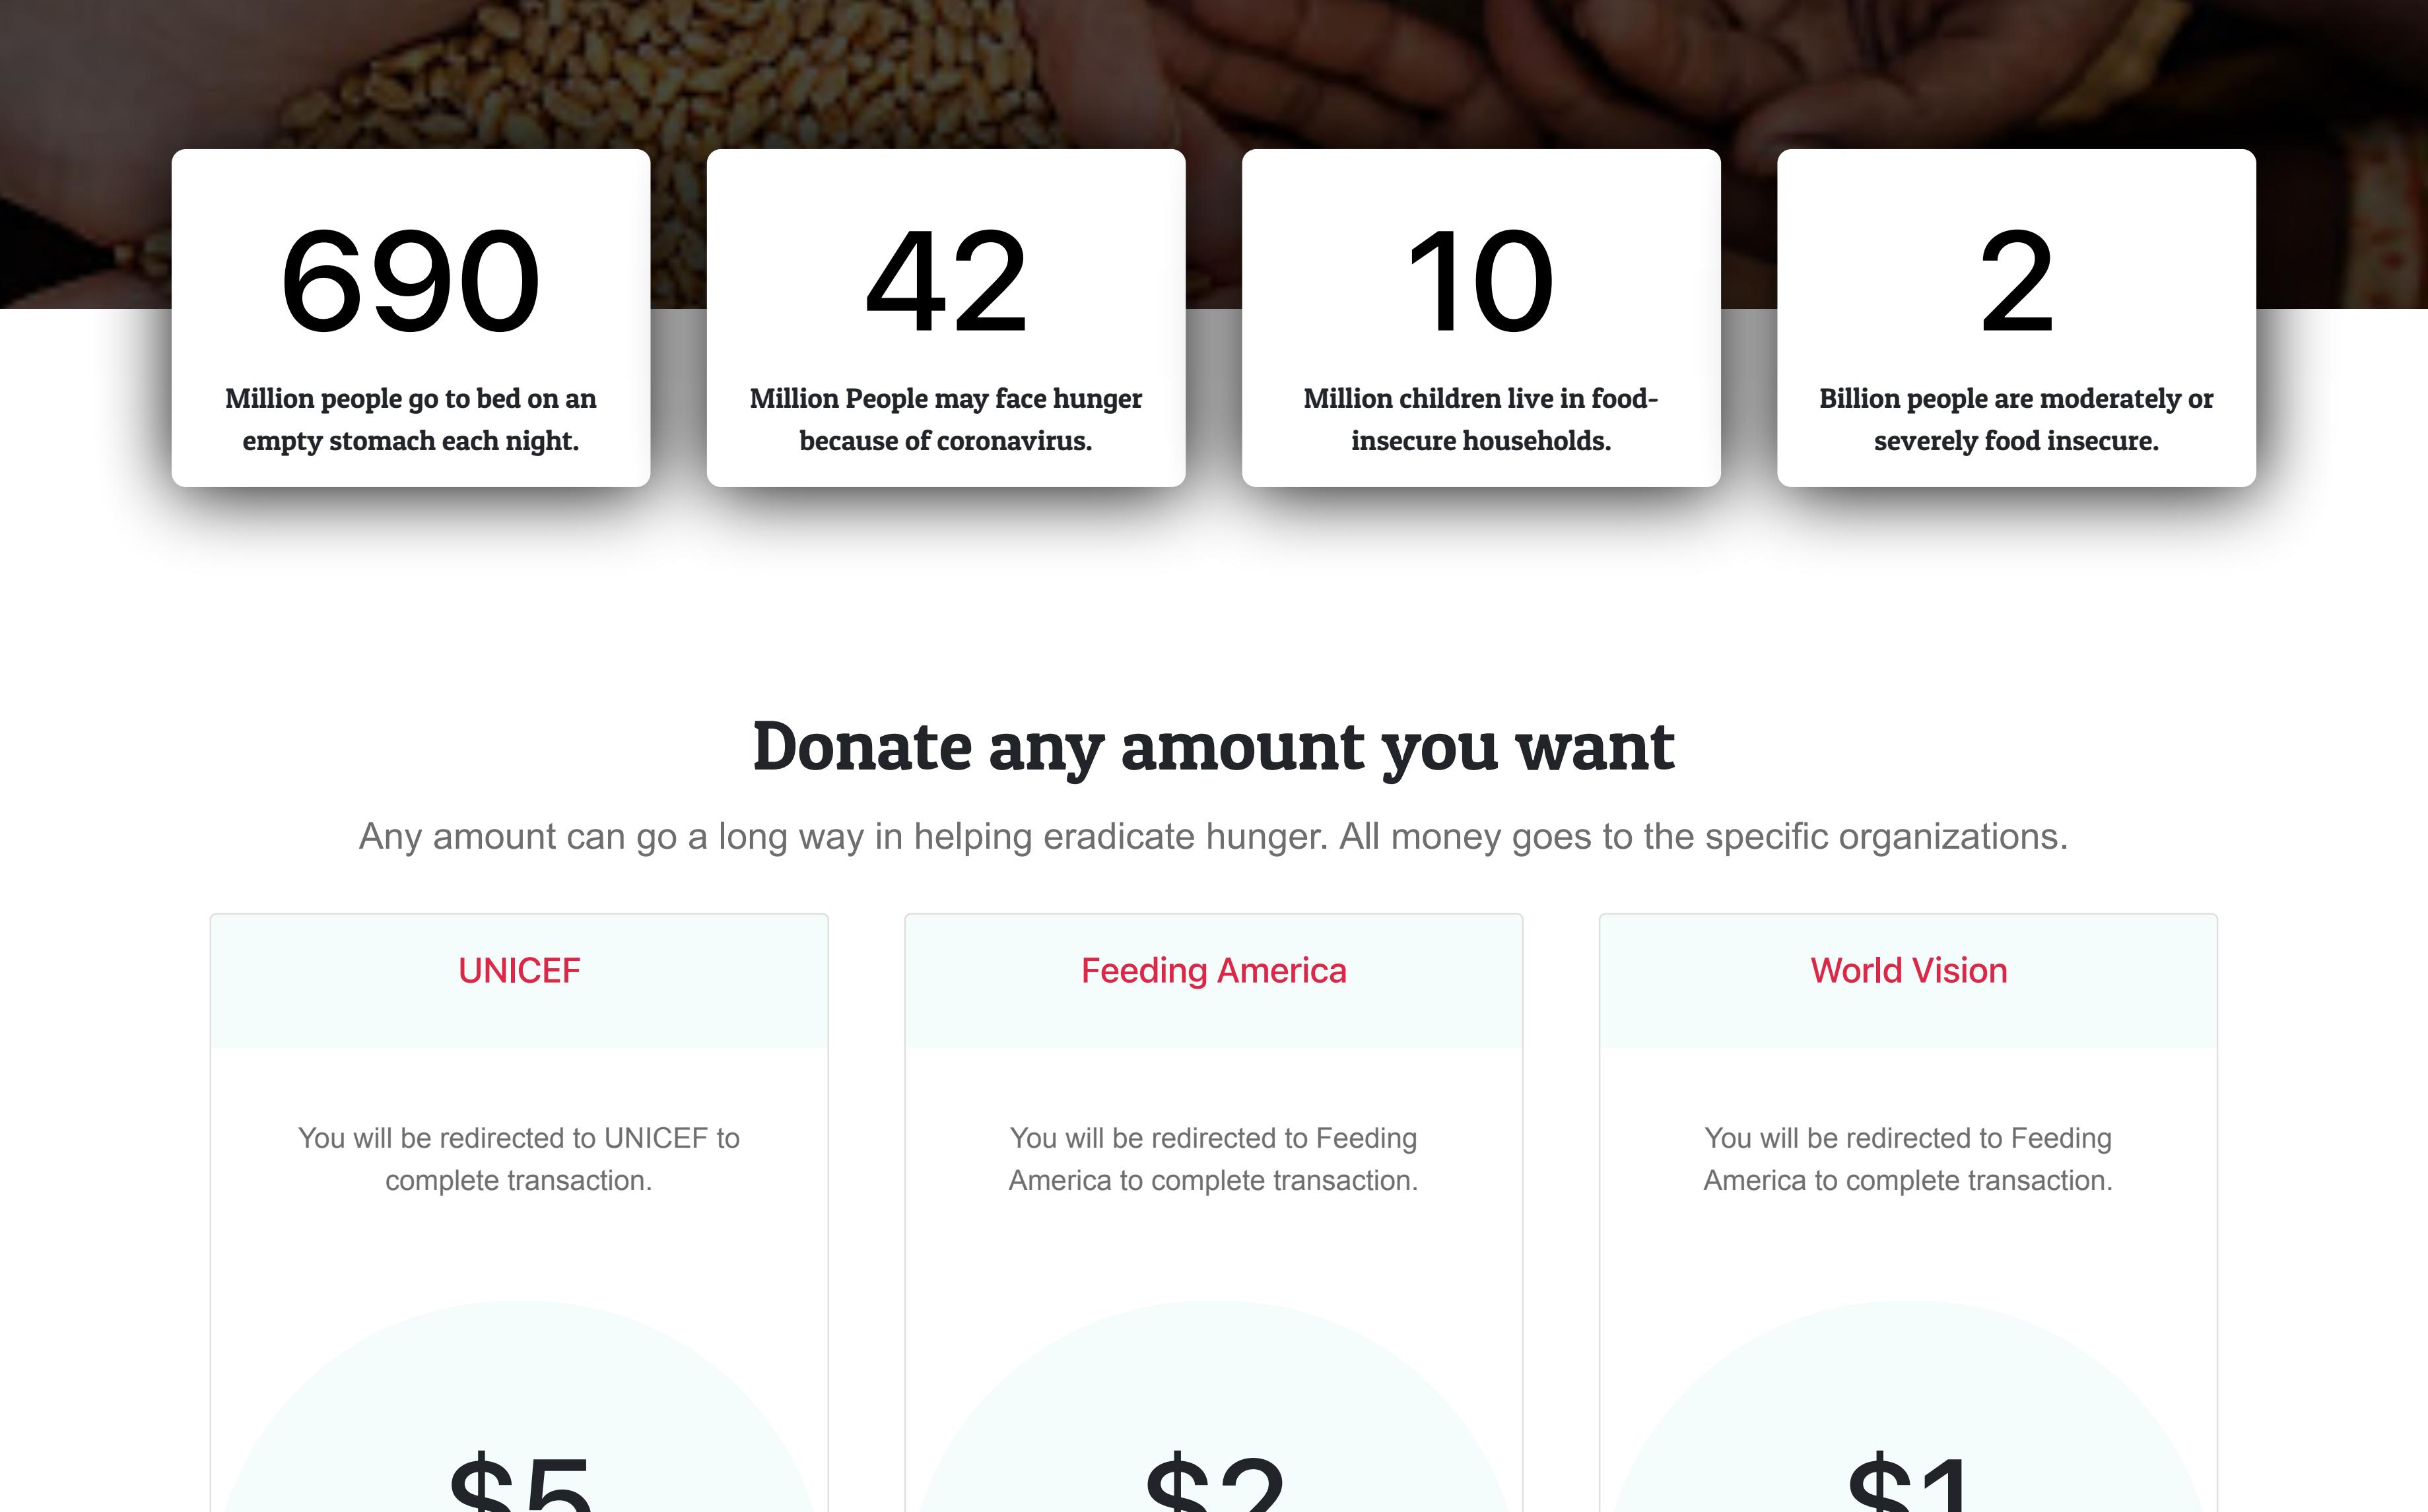

### Our Vision

Prevent households from going hungry by providing them with the resources they need to find their local food banks.

## Looking for a food pantry near you?

Statistics on food insecurity and hunger.

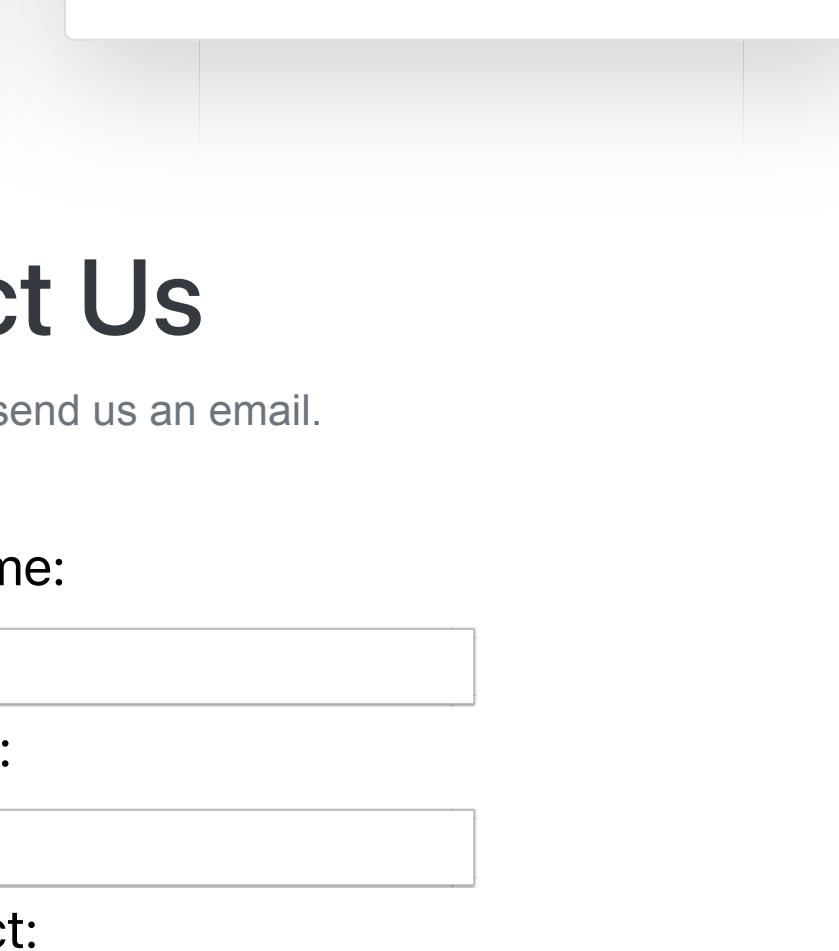

## Who Are We? Meet the team:

**Ebenezer**

I am a sophomore at Pomona College, and I am primarily interested in how computer development can be used to solve challenging problems.

[View my linkedin profile](#)[Student at Pomona](#)**Arlet Miranda**

I am a sophomore at UC Berkeley studying computer science, I build software that can help to build for those who are unable to help themselves.

[View my linkedin profile](#)[Student at Berkeley](#)**Oswaldo Escobedo**

I am a junior student at the University of Texas at El Paso. Since I was a child I wanted to work at NASA. Since something STEM-related, it is not surprising that back then I used to say that my dream job was to work at NASA one day.
